💠 Business Problem:

"How can the chocolate company improve its sales strategy by identifying top-performing products, regions, and salespeople, while optimizing shipment volumes and revenue efficiency?"

🎯 Business Objectives:

1. 📈 **Boost Revenue**
   Identify which products and regions drive the most revenue.

2. 📦 **Optimize Shipping Efficiency**
   Analyze how many boxes are being shipped versus how much revenue is being generated.

3. 🏆 **Track Salesperson Performance**
   See which sales reps contribute the most revenue and highest average sale value.

4. 📍 **Uncover Regional Trends**
   Compare sales performance across countries and identify high-potential markets.

5. 📅 **Analyze Time-Based Sales Patterns**
   Spot trends, seasonality, or dips over time (by month, quarter, etc.).
